The CRNRA is the 22nd most visited Park in the National Park System and attracts a people for many types of activities including hiking, biking, boating, fishing, and more. 70% of Atlanta's water supply comes from the Chattahoochee River so keeping it clean is a very important aspect of some of the work the National Park Services does for the CRNRA.

Some of Ann's Visions and Goals for the park as Superintendent include:

- Communication
- Partnerships
- Park Awareness
- Diversity and Inclusion
 - Safety
- Accountability

Honious and her team at the National Park Service are currently nearing completion of a Comprehensive Trails Management Plan to address the park's needs and will partner with Chattahoochee National Park Conservancy to help secure resources for the long-range implementation of the plan. Thank you for coming to speak to the Club and keep up the great work Ann!
